May 07th 2015: At the Intersection of Big Data and the Internet of Things - Part 3

Tune in

Tuesday at 7 AM Pacific Time/10 AM Eastern Time on VoiceAmerica Business Channel

The buzz: IoT When we discuss Internet of Things, it's about processing massive amounts of data. But what about the major management challenge this poses: how to change your management practices to take advantage of the fact that, for the first time, everyone who needs it can share real-time information about the company and do it instantly? This will demand a major shift, requiring senior managers to relinquish control of traditional top-down data flow. The experts speak. W. David Stephenson, Stephenson Strategies: "The Web as I envisaged it, we have not yet seen it yet. The Future is sti
