

### The Soul of Enterprise: Business in the Knowledge Economy Friday at 1 PM Pacific September 11th 2015: Interview with George Gilder

We are honored to have the opportunity to interview George Gilder, writer, economist, technology advocate, and co-founder of the Discovery Institute. Mr. Gilder released a monograph entitled: The 21st Century Case for Gold: A New Information Theory of Money. His 1981 international bestseller, Wealth and Poverty, advanced a practical and moral case for supply-side economics and capitalism during the early months of the Reagan Administration and made him President Reagan's most quoted living author. In 2013 he published Knowledge and Power: The Information Theory of Capitalism and How It is Revo
