September 22nd 2015: Enhancing Public Education

U.S. students are improving in math and science, but are still lagging behind their counterparts in many other countries. One of the reasons for the poor performance is funding inequality. About half of our education funding for public schools comes from local property taxes, resulting in large disparities in funding between wealthy and impoverished communities. This is a sharp contrast to the situations in other developed countries where school districts typically receive equal funding on the basis of the number of students enrolled, regardless of local wealth. Silicon Valley Education Fo

### Featured Guest

#### Muhammed Chaudhry

Muhammed Chaudhry serves as President and CEO for the Silicon Valley Education Foundation (SVEF). SVEF has become the leading education not-for-profit resource preparing students for college and careers in Silicon Valley. The foundation is dedicated to elevating scholastic achievement in the critical area of STEM. With Muhammed's leadership the foundation has forged strong partnerships with the industry and education community to develop innovative programs to support public education. Muhammed holds a BS in Business Administration from SJSU and is a graduate of the Stanford Executive Leadership Program. He resides in San Jose with his wife, Rabia and their twins.
