

Turning Hard Times into Good Times

with Jay Taylor

Turning Hard Times into Good Times Tuesday at 12 Noon Pacific

November 17th 2015: The Geopolitical Future of the Petro Dollar and Gold

F. William Engdhal and Michael Oliver return. Since Nixon removed gold from the dollar in 1971, the dollar's strength has been maintained by a U.S. military that has enforced the petroleum-based dollar for world trade. That has allowed the U.S. to print endless amounts of money used for military encroachment on Russian and Chinese sovereignty. Naturally that has elicited a reaction from both countries to the point where World War III is perhaps more likely now than during the Cold War. What few realize is that the base cause of this rising conflict is the threat to Russian and Chinese sovereign

Featured Guests

F. William Engdahl

F. William Engdahl is an award-winning geopolitical analyst, strategic risk consultant, author, professor and lecturer. After earning a degree in politics from Princeton University and graduate study in comparative economics at Stockholm University, he worked as an economist and investigative freelance journalist in New York and Europe. He has been researching and writing about the world political scene for more than thirty years. His various books on geopolitics have been translated into 14 foreign languages from Chinese to French, from German to Japanese. His most recent works trace the strategies and events that led to the rise of the US as an international superpower after 1945, a new ki

J. Michael Oliver

J. Michael Oliver entered the financial services industry in 1975 on the Futures side, joining E.F. Hutton's International Commodity Division, NYC. He studied under David Johnson, head of Hutton's Commodity Division and Chairman of the COMEX. In the 1980's Oliver began to develop his own momentum-based method of technical analysis. In 1987 Oliver, along with his futures client accounts (Oliver had trading POA) technically anticipated and captured the Crash. Oliver began to realize that his emergent momentum-structural-based tools should be further developed into a full analytic methodology. In 1992 he was asked by the Financial VP and head of Wachovia Bank's Trust Department to provi
