with Jay Taylor

Turning Hard Times into Good Times Tuesday at 12 Noon Pacific

December 15th 2015: On the Edge of the Fed's Planned Economic Chaos

Dan Oliver and Michael Oliver return. Following 2008-09 it is clear that the Federal Reserve is doing all in can to destroy capitalism. By manipulating interest rates, it disallows the pricing of capital. Because politicians and policy makers do not allow savers and investors to know what the true price of capital is, capital, the lifeblood of capitalism, is being drained from the system. By denying capital to be priced, parasitic elite is becoming ever wealthier as the middle class is inexorably relegated to serfdom. How much longer can this carnage go on before a horrific deflationary depres

J. Michael Oliver

J. Michael Oliver entered the financial services industry in 1975 on the Futures side, joining E.F. Hutton's International Commodity Division, NYC. He studied under David Johnson, head of Hutton's Commodity Division and Chairman of the COMEX. In the 1980's Oliver began to develop his own momentum-based method of technical analysis. In 1987 Oliver, along with his futures client accounts (Oliver had trading POA) technically anticipated and captured the Crash. Oliver began to realize that his emergent momentum-structural-based tools should be further developed into a full analytic methodology. In 1992 he was asked by the Financial VP and head of Wachovia Bank's Trust Department to provi
