

BORN TO BE BREASTFED

WITH
MARIE BIANCUZZO RN MS IBCLC

Dreaming of becoming an IBCLC?

We can help you make that dream come true.

Born to be Breastfed

New shows weekly

January 25th 2016: Epige-WHAT?!?! Why It Matters For Your Milk and Your Baby

The science of epigenetics tells us that environmental factors can influence our genes or genetic development. Breastmilk is well-known for its ability to prevent illness and disease (e.g., necrotizing enterocolitis, infectious diseases, and more.) Nutrition in early life—such as whether a child receives his mother's milk or an artificial formula—may affect which genes are activated and, ultimately, overall health. Tune in as Marie talks with pediatrician and breastfeeding specialist Dr. Jenny Thomas about how breastfeeding and genes work together to support your baby's health, and how the dec
