February 26th 2016: What Does it Mean to be a 'Climate Resilient City'?

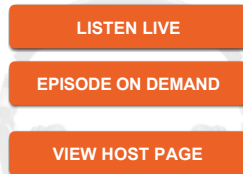

In his Jan. 2015 State of the City address, Long Beach Mayor Robert Garcia announced that he wanted to make Long Beach a model of a climate resilient city. He asked the Aquarium of the Pacific to take a lead in assessing the primary threats that climate change poses to the city, to identify the most vulnerable neighborhoods and segments of the population, and to provide a preliminary assessment of options to reduce those vulnerabilities. The Aquarium has released a report detailing assessments of the five main threats of climate change to our community (drought, extreme heat, sea level rise an
