## Innovative Leaders Driving Thriving Organizations

Tuesday at 11 AM Pacific

May 24th 2016: **Cyber security: Thriving in a High Threat Environment**

Leaders will better understand the nature of the threats we currently face and how to take proactive steps to optimize organizational success by taking advantage of the cloud and at the same time protect organization's critical to position to run efficient and effective organizations.

During this show, Maureen and Dale will discuss several questions raised by an executive forum to provide a perspective from senior leaders:

1. Overview of the cyber security landscape - what is real and what is hype?
2. Address specific questions from the executive forum members about c

### Dr. Dale Meyerrose

Dr. Dale Meyerrose, Retired Air Force Major General. He is the first President-appointed, U.S. Senate-confirmed Chief Information Officer of the U.S. Intelligence Community. Technology leaders find it increasingly difficult to differentiate those few things that matter from the many that seem to be important. If current discourse is reflective of thinking, then CIOs are stuck with a mind-set and language that fails to inspire confidence within the C-suite, board of directors, and functional colleagues. By contrast, those who should depend on the CIO, rapidly moved the "technology cheese" without consultation; and the bad guys changed the threat landscape with even greater speed, in spi
