Go Green Radio Friday at 9 AM Pacific

June 17th 2016:Encore: In Response to Ted Koppel's New Book, 'Lights Out,' on the Cyber Security of our Power Grid

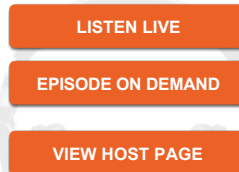

Ted Koppel's new book, "Lights Out," he asserts that a major cyberattack on America's power grid is not only possible but likely, that it would be devastating, and that the United States is shockingly unprepared. Koppel warns that a well-designed attack on just one of the nation's three electric power grids could cripple much of our infrastructure, and the federal government, while well prepared for natural disasters, has no plan for the aftermath of an attack on the power grid. On today's episode of Go Green Radio, we'll talk with Scott Aaronson, the Managing Director for Cyber and Physical S

Featured Guest

Scott Aaronson

Scott Aaronson is the Managing Director for Cyber and Physical Security for the Edison Electric Institute (EEI). Prior to joining EEI, Mr. Aaronson was a senior adviser to Members of Congress serving the 12th Congressional District of California, including former House Foreign Affairs Committee Chairman Tom Lantos and his successor, U.S. Representative Jackie Speier. From 2001 to 2007, he served as an economic policy adviser to U.S. Senator Bill Nelson. He attended the University of Colorado at Boulder for his undergraduate studies, and received a master's degree from The George Washington University.
