**Wednesday at 8 AM Pacific/11 AM Eastern**  
**July 13th 2016: Bitcoin/Blockchain: Hype or Hope for a New Secure Cryptocurrency?**

The buzz: Show me the money? Our current financial world is rife with inefficiencies: cross-border payments take days and cost money, inter-bank funds are slow, accessing money is cumbersome, trading securities takes time. Hail, cryptocurrency! Bitcoin and blockchain were created to solve some of these challenges. How does it work? Should your business, your industry, and you personally adopt this new form of currency? What are the risks? The experts speak. Angus Champion de Crespigny, EY: "It's not worth doing something unless you were doing something that someone, somewhere, would much rather

### Featured Guests

#### Angus Champion de Crespigny

Angus Champion de Crespigny is a Senior Manager in EY's Financial Services Office where he leads Blockchain strategy for the financial services industry. In his role, Angus brings together global teams to deliver engagements and develop services and thought leadership on blockchain and related technologies for financial services clients. In addition to institutional clients, Angus has advised a number of startups, regulators, governments, and is a frequent speaker at conferences internationally. Angus has published numerous articles and performed regular media interviews, specializing in the practical implementation of distributed infrastructure innovations and the development of new bus

#### Richard McCammon

Richard McCammon, CEO at Delego Software, is a foremost expert in electronic payment security and SAP integration. In 1994 Richard began working with the SAP system. In 1997, he became an independent consultant working with major corporations in Canada. In this role, Richard saw an opportunity to produce world class payment card integration software for merchants using SAP, giving way to the Delego Suite of products. Delego Software was certified as a solution by SAP in early 2000. Richard was the driving force behind Delego Software and creating solutions for Fortune 5000 companies. He has presented to the American SAP User Group (ASUG), SAPPHIRE NOW & ASUG Annual Conference and SAPInside
