## FRANKLY SPEAKING ABOUT CANCER

Join host Kim Thiboldeaux, CEO of the Cancer Support Community, for a weekly radio broadcast empowering listeners to live well with cancer.

RADIO SHOW

Every Tuesday  
4PM ET (1PM PT)

### Frankly Speaking About Cancer with the Cancer Support Community

Tuesdays at 1 PM Pacific

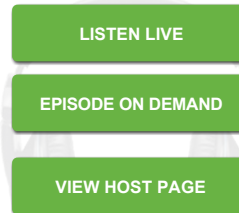

August 02nd 2016: Understanding Cancer and Genetics: Multi-Gene Panel Testing

How do you know if you're genetically predisposed to developing cancer? Oftentimes, cancer occurs sporadically—from gene mutations occurring over the course of a lifetime. However, about 10 percent of all incidences of cancer are caused by inherited gene mutations which increase the risk for developing certain types of cancer. When several people in your family have been diagnosed with cancer, many physicians may refer you to genetic testing. On this episode of Frankly Speaking About Cancer, we're exploring one particular type of test, multi-gene panel testing.
