September 08th 2016: **Future of Business: When Connected Things Surpass Connected People**

The buzz: I want to be alone. -Garbo. Not! Did you hear the one about the major connectivity company that connected more 'new things to things' than 'new people to people'? As the Art of the Possible instantaneously connects innovative devices with people, processes and results, the lines between professional and personal blur more. Who is driving the IoT digital innovation bus – business, academia, government, individuals? Where is the bus heading? Are we ready to mass-adopt a fully digital world? The experts speak. Gary Nelson, SAP: 'There is no digital strategy anymore. Just strategy in a d
