Turning Hard Times into Good Times
Tuesday at 12 Noon Pacific
September 27th 2016: Trumped! A Nation On The Brink Of Ruin and How to Bring It Back

David Stockman and Michael Oliver return. James Anderson visits for the first time. Parasites who inhabit Wall St. and Washington and dominate the air waves are destroying what's left of free market capitalism by disallowing price discovery of capital by suppression of interest rates. A massive redistribution of wealth from those who produce it—the miners, manufacturers, farmers and inventors who live in “fly-over” country—are mad as hell and they aren't going to take it anymore. Enter Donald Trump to the rescue. But does the Donald have the answers that can restore wealth creation through fre

James Anderson

James will be responsible for all aspects of the daily management of the company. He will also be in charge of presenting the company's story to both individual and institutional investors. Additionally, he will lead the company's ongoing efforts to secure the financing necessary to continue to grow shareholder value through the discovery of mineral wealth. A graduate of the University of Alberta, James spent 19 years as an investment banker, then manager, with several boutique-sized Canadian investment firms including First Canada Capital Partners, Research Capital, and Majendie Securities. James has spent much of his career providing investment advice to clients who were directly involve

J. Michael Oliver

J. Michael Oliver entered the financial services industry in 1975 on the Futures side, joining E.F. Hutton's International Commodity Division, NYC. He studied under David Johnson, head of Hutton's Commodity Division and Chairman of the COMEX. In the 1980's Oliver began to develop his own momentum-based method of technical analysis. In 1987 Oliver, along with his futures client accounts (Oliver had trading POA) technically anticipated and captured the Crash. Oliver began to realize that his emergent momentum-structural-based tools should be further developed into a full analytic methodology. In 1992 he was asked by the Financial VP and head of Wachovia Bank's Trust Department to provi
