October 20th 2016: Encore: Global Business on Steroids: The DT Revolution Is Real

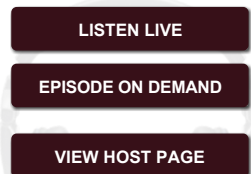

The buzz: "You tell me that it's evolution." It's the future of global business on steroids, a revolution right now that knows no borders. What is it? The Digital Transformation (DT) revolution. DT was set in motion with the first computer and has the same exponential growth curve as the Internet. As more people and devices join, DT gets stronger. Every industry, organization and structure will change and the transactional business world as we know it today will be fundamentally transformed. If you think DT doesn't apply to you and your business, you're in for a shock. The experts speak. Prof.
