January 23rd 2017: You CAN Understand Your Baby! Find Out How

There is not a parent around who hasn't, at one time or another, wished their baby could speak and tell them exactly what was needed. Is it a new diaper? A feeding? A cuddle and closeness? Is it that baby is sick? Sometimes, it can be hard to know. But it doesn't have to be, says Dunstan Baby Language (DBL) expert Di Bustamante. DBL is based on the remarkable, evidence-based idea that "every baby, of every race, colour, and culture" makes the "same 5 sounds before they cry out," and that each sound indicates a specific need. If you're a new or expectant parent, this is a show you won't want to

Featured Guest

Di Bustamante

Di Bustamante has made a career out of supporting women and children as they transition through pregnancy, childbirth, and into new parenting. She completed her training and certification as a doula and childbirth educator with Childbirth International and has worked as a board-certified consulting hypnotist, Hypnobirthing(R) practitioner, child birth educator, pregnancy massage therapist. She has also trained instructors in infant massage and Dunstan Baby Language of infant communication. Over the years, Di has volunteered with breastfeeding training programs for new moms and a child bereavement support group. Currently, she resides in Pine, Arizona, where she is a practicing hypnotherapist
