February 15th 2017:Fountains of Youth

From genetics to nutritional supplements, age-defying technologies are coming on-line almost every day. In this episode, we'll look at advances in product ingredients, nutrition, and health supplements coming out of advanced biotechnology that promise to slow down the aging process and the onset of disease. What's real, what's hype - we look behind the headlines to uncover the real story.

Featured Guest

Helena Taveres Kennedy

Helena Kennedy is a writer for Nuu - the digital voice of the new physical world, writing each week about new products, chemicals and materials that are changing lives and outcomes around the world — from empowering rural development in the developing world to the frontiers of biotechnology in the top R&D labs around the globe. She formerly was marketing chief for the Roundtable of Sustainable Biomaterials and is a widely-known leader in the global sustainability movement.
